I enjoyed making the bargello shower curtain (Q48), but since it resides in my bathroom, I can't display it at shows. The solution was to make a bargello wall hanging. Chose some of my favorite colors and embellished it with crystals to highlight the movement in the quilt. I do like the surprise a bargello quilt gives me - since I create the movement as I put the quilt together. I don't know what it will look like until I am done!
